

INVITED SESSION SUMMARY

Title of Session:

Evaluation of Healthcare by Soft Computing

Name, Title and Affiliation of Chair:

Hisao Shiiizuka, Professor, Dr, Fuzzy Logic Systems Institute

Details of Session (including aim and scope):

The health problem that modern people are having is wide-ranging. However, a method of assessing the status of our health has not been established yet.

In this invited session, we discuss how using the technology of soft computing, including fuzzy theory, genetic algorithm, the AHP, etc., to assess the state of health.
